Height	246.3 cm / 96-15/16″	Max. User	180 kg / 397lbs

DESCRIPTION

The Pulse Fitness Rig 008 is a versatile 2-bay, dual-sided functional training rig engineered for high-performance environments. Designed to accommodate a wide range of strength and cable-based exercises, it features multiple chinning bar configurations, integrated storage and dual pulley stations for dynamic training. Perfect for PT zones and group training areas, this rig delivers maximum functionality in a space-efficient design.

Constructed from heavy-gauge steel section, and built to endure the most vigorous of workouts. The free-standing, single or dual-sided Functional Training Rig is the most versatile, modular, piece of commercial fitness equipment available. Designed to support a wide range of workouts and accessory storage, all within one highly customisable, space-efficient solution.

The 960i can be configured (and re-configured if necessary) to fit into extremely specific spaces, and therefore can accommodate the needs of both athletes and gym-goers training needs.
