275H Variable-Stride Trainer

SKU: 275H-AAF

Description

The 275H Variable-Stride Trainer is an advanced elliptical machine, that allows users to instantly change the length of their stride/ step during a workout. The machine has a smooth, elliptical motion that simulates activities like walking, jogging or running, whilst reducing impact on joints.

Designed with an effective and engaging workout variety in mind, legs, glutes, hamstrings and the upper body (via. handlebars) are all targeted. Delivering a dynamic, total-body, low-impact workout.

Made from durable high-performance materials, this Trainers design prevents sweat, dirt, and fluid ingress, to deliver an ultra-smooth operation. It has 40 different speeds levels. Engineered with a smooth stepping motion, ergonomic handrails, and a poly V-belt drive train that delivers a smooth, quiet performance.

This products Console is loaded with technology, both simple and intuitive to use. It has entertainment and multimedia, making climbing more engaging than ever before.
